TELEPHONE INCREASE

Maybe an increase of 50 cents a month in telephone tolls does not mean much to the average household.

We have mentioned here previously about the "extended service" proposed by the General Telephone Co., at an increased price. The plan is to eliminate the necessity of paying long distance tolls on calls to Lycoming numbers — in Pomona, Claremont and other communities a short distance west of here.

Very few persons have expressed any interest in the proposed increase — and the Upland city council likewise has accepted the situation without any comment to the Public Utilities commission.

Henry Busch, city attorney, has advised the council the commission investigators may make some changes in the application.

In any event, the General Telephone Co. is proposing to increase the rates as follows: 50 cents a month on all residential telephones and $3 a month on all business telephones. For this increase, there will be no toll on calls to Pomona.

Perhaps local families use Lycoming numbers sufficiently to justify the proposed rate increase.

In any event, the time for public expression is now. Without the expression it is very likely the proposed extended service will prevail at the higher charges.

LOOKING OVER UPLAND

Hundres of homeseekers visit Upland every Sunday.

Local streets are very, very busy Sundays as local residents and out-of-town visitors tour the community looking over available sites for new houses. "Open Houses" prevail in many parts of the Upland-Foothill communities and so prospective buyers and builders make the most of the opportunity.

This is one of the choice remaining good home site areas in the southland and this is quite widely known in the southland. Many local residents are also seeking new homes and building sites.

So, every Sunday there is a very interesting parade of "lookers" — and some buyers — who tour the community.

MEDICAL RECORDS

Having had rheumatic fever and assorted ailments during our youth, we have been under one or another doctor's care most of our lives, and are full of all kinds of anti-biotics and drugs, which have given us much better health than we could have anticipated in childhood.

But our real strength was brought sharply to our attention this week as we filled out a health insurance application. Going through the list of ailments, injuries and conditions offered, we found ourselves checking a goodly number. Then came the questions as to details of the conditions, month and year, name and address of attending physician.

Some people have trouble remembering their past ailments, especially when they have been numerous. And we found it especially difficult to remember the year, not to mention the month of past illnesses. But the real stickler came with the request for the names and addresses of the attending physicians.

OUTLIVED PHYSICIANS

And this is when we realized we must have a fairly strong constitution and/or fair health. For we have outlived most of the physicians who have attended us.

Both family physicians who treated us in early childhood are deceased, as well as several others in whose care we have committed "ourself" in the interim years. This week was not the first time we have realized the absence of these good doctors, for their records are also not available and have caused us considerable inconvenience more than once.

To be completely truthful, when filling out forms such as those we have just maneuvered, is to list the time you were treated for shock in Wyandott, Pa., after an auto accident. The current problem then, is to recall from your subconscious or brain storehouse the name of the doc who attended you during the fuzzy, bewildering period of which you knew little, let alone remember little.

COUNCIL EXPECTED TO REZONE EUCLID-FOOTHILL PROPERTY

Alder, Proponents Revise Plans For Presentation March 7

A week from today, Upland city council is expected to reverse the Planning Commission's decision on the zone change request for Euclid-Foothil corporation's 40-acre parcel on the southwest corner of Euclid Ave. and Foothill Blvd., to permit construction of a $2 million shopping center.

At Thursday night's council meeting, it was apparent the intent of the Council is to rezone if their recommendations to the proponents are followed and an acceptable solution found that would be agreeable both to the councilmen and the proponents.

Council Recommendations

It was suggested by the council that the southerly line of the development be changed to show a straight line from Euclid Ave. west to the property line of Upland High school. This would eliminate a parking area originally planned to extend south from this line, and west of Laurel Ave. The Council expressed the desirability of a straight southerly boundary for the development to create a definite division between residential and commercial areas.

Councilman Robert Thrall, stating that a large number of objections to the zone change and development are based on the desire of the entire community to preserve the beauty of Euclid Ave., asked that the landscaped setback on Euclid be considerably more than the 10 feet in the original plan submitted. He first suggested a 50 foot setback but after hearing the proponents outline problems this would create, suggested a compromise of 25 feet could probably be reached.

Maintain Beauty

Mr. Thrall stated that as a 50-foot landscaped setback is required of new homes and churches on Euclid Ave., he believes a commercial development, if allowed, should also conform to maintain the beauty of Euclid Ave.

Ralph H. Miller, and Charles Milhiser, spokesmen for the property owners requesting the zone change, spoke on the parking area that would be taken from the original plan by adherance to the council recommendations for a straight south boundary line and additional landscaped setback on Euclid Ave. However, with the council authorizing and directing City Manager Elwin Alder to prepare the plan set forth after council study, with additional study of the Euclid landscaped setback and its inclusion in the plan, the proponents assured the council they would work toward a plan satisfactory to the city. Councilmen Abner Haldeman cast the only negative vote on the council motion.

Council Study

"The council generally, in looking at this issue from every side possible, generally believes this development would be an addition to the town", Mr. Thrall stated prior to the council action. The results of the council study of the zone change, at an executive meeting the previous Tuesday, were reported by Mr. Alder in a letter read at the meeting. The suggestions to be followed by the proponents in altering their original plan were outlined in this letter.

Future development in the area, adjoining properties, traffic flow, proximity to the high school and other considerations were studied by the council before reaching a favorable attitude on the matter, Mr. Alder reported.

Occupy New Baldy View Classrooms

Reorganization of some of the classes at Baldy View Elementary school was disclosed by Mrs. R. Frances Mitchell, principal, at the regular PTA board meeting, Tuesday evening, in the school.

With completion of the new rooms at the school, and the addition of Mrs. Royce Saltzman to the faculty, the combination of grades will be discontinued and two straight classes each of the second, third and fourth grades will be started Monday.

Two sixth grade classes from Sierra Vista also will be welcomed by Baldy View school for the rest of this school year. They will come with their teachers on the bus in the morning and leave in the afternoon. At Sierra Vista this means no more classes on double session.

Crash Survivor Reported Fair

In fair condition at San Antonio Community hospital late yesterday was Mrs. Lela Owens, 30, who was seriously injured in the early hours of Monday morning in an auto crash that claimed the life of her husband, a world war two hero Daryl Gardner Owens, 39.

Residents of 601 N. Palm Ave., the couple was returning home after a Sunday birthday celebration for Mr. Owens in Los Angeles. At 4:15 a.m. the Owens car crashed into a steel guard rail, on which it was impaled, at the Central Ave. crossing of San Bernardino freeway.

An Uplander for five years, Owens was killed instantly. Highway Patrolman Fred Buzzard, in charge of the crash investigation, said the victim apparently fell asleep at the wheel as there was no evidence the auto's brakes had been applied before the crash.

A supervisor for an aircraft company at Ontario International airport, Mr. Owens was a Naval flier during world war two, for which he received the Distinguished Flying cross and Air medal. His wife, three children and a sister survive.

1957 Building Up $233,754

Building in Upland for 1957 is $233,754 ahead of the first two months of 1956, City Building Inspector Richard W. Derby reports, with total February building amounting to 62 permits and $679,765. The two-month total is $966,602.

Of the February total, $662,200 represents permits for 41 dwellings, as compared to 25 home permits for Feb., 1956. There have been 51 home permits thus far this year, with 50 reported by Mr. Derby for the same period in 1956.

Average cost of the homes now under construction is in excess of $16,000, as was true for Feb. 1956. The total building for the first two months of 1956 amounted to $732,848, which was a considerable increase over the 1955 period.

Citrus House To Have New Use

Long the headquarters for Alta Loma Heights Citrus Assn., this building in the heart of the Alta Loma business district, on Amethyst St., is scheduled to become a furniture manufacturing center in the near future. A large west coast firm is completing negotiations with the Assn. to move its California operation here. —Upland News Staff Photo

Large Industry For Former Citrus House

Bringing to the Alta Loma district a major industry is the B.P. John Furniture Corp. with 100 employes to be on the job at an early date.

This announcement was made yesterday by Robt. Nesbit, president of the Alta Loma Heights Citrus Assn., who for many months has been in negotiations for lease of the Assn. citrus house for use by the furniture manufacturing firm. In addition to the facilities on the east side of Amethyst Ave. the lease also includes 3½ acres of adjoining land.

Actual use of the property is scheduled by April 1, according to C. H. Nyssen, president of the corporation. Head offices are in Portland, Ore. with operating plants in Portland, Oakland, Los Angeles and Kernville, N.C.

The building is available because of the transfer of the citrus packing activities to the Cucamonga Mesa Growers on 19th St., Upland.

Mr. Nesbit said the association would renovate and improve the 90,000 square foot building and that the tenants would install facilities for furniture manufacturing.

While the transfer will be gradual to the new Alta Loma operations it is likely the number of employes will be steadily increased and a $1,000,000 annual payroll is forecast. The factory will produce the Flex Steel line of home furnishings. It is a nationally known upholstered line of furniture, it is reported.

Mrs. Reading $100 Dividend Days Winner

Shopping in Upland has paid off for Mrs. Harry J. Reading last week, not only in the good buys available locally, but also to the tune of $100 in cash.

Mrs. Reading, who says she does a good deal of her shopping in Upland, was the Dividend Days winner, holding the lucky ticket drawn from the many registered at downtown Upland stores over the three February Dividend days.

Winning the $100 was "as much a surprise to me as to anyone," Mrs. Reading told The Upland News. And while this is the first time she has been so fortunate, it is not the first time she has been a surprised winner. Several years ago she won a blanket given away by the Upland American Legion auxiliary.

An Uplander for 5½ years, Mrs. Reading is the mother of five children. Mr. Reading is assistant superintendent of the tin mill at Kaiser Steel, Fontana. The family came here from Steubenville, Ohio, and resides at 843 N. Second Ave.

An excess tax rate of $1.10 at Chaffey high school expires this year.

In view of this fact, a meeting of the Chaffey district planning committee will be held tonight in the auditorium of the homemaking building on the Euclid Ave. campus to discuss ways and means of meeting the situation.

The present $1.10 rate was voted five years ago for a five-year period.

Members of the executive board, San Antonio chapter, Daughters of the American Revolution, were the assisting hostesses when Mrs. J. R. Shinkle, 850 W. Fourth St., entertained at a colonial tea Monday, 2 to 5 p.m.

Guests were received by Mrs. Shinkle, Mrs. Homer G. Glunt, regent, and Mrs. V. O. Mayo.

An early American theme was evidenced in the decorations which included an antique lace fan, 150 years old, used with flowers as a table center. Another fan arrangement was in the foyer and favors for guests were tiny flower and ribbon decked fans.

During the afternoon Mrs. M. L. Gottfried, in costume, as were many of the board members, played early American tunes on an antique organ.

Assisting hostesses were Mmes. O. B. Thomas, Paul Tacke, Elsie Hamilton, Bruce Grube, Wm. S. King, Chas. May, C. F. Wikoff, Guy F. Underwood, Kerns A. Overton, T.M. Lee, Miss Elsie Hamilton and Miss Willamene Harnly.

Oldest Group In Reunion

(Continued from Page 2)

Grace Paulin and Mrs. Eva Belle Pehl.

During the past 46 years, a total of 27 women have been members of the Merrie Wives. Of the 14 who compose the "new member" list, those who joined after Feb. 22, 1911, four were present Friday. They are Mrs. Thomas Harris, Mrs. S. S. Parmenter, Mrs. C. C. Eymann of Arcadia, and Mrs. A. R. Carter of Tarzana. Also present were Mrs. Anna Myers of Los Angeles, a member of the Upland GT club, and Mrs. Earl Moore of Downey, guests.

Oldest member of the group is Mrs. Nichols, mother of Mrs. Brest, who is the youngest member. The latter recalls that she is the only single woman ever to have been a member of the Merrie Wives, having been as a bride-elect, at the time of their organization she was given the courtesy of an invitation to join the original group.

For years the social meetings revolved about embroidery, but gradually this was put aside and their gatherings devoted to conversation and light refreshments. Each year they have observed the anniversary of their founding, usually with a luncheon meeting at a commercial dining room, but this year Mrs. Brest took exception to the rule by inviting the group to her home for the anniversary luncheon.

Like the Good Talkers, the Merrie Wives are a handsome group of women in ther golden years, who undoubtedly enjoy their monthly socials today even more than in the busier, more active days when they first organized.

Mr. and Mrs. Michael Muho, 1030 E. Holt Blvd., Ontario, formerly of Seventh St., Ontario, have as their guest Mrs. Muho's sister, Mrs. Mary Zabik, Yonkers, N. Y. and a cousin, Mrs. Mary Horvath, Spring City, Pa.

Mrs. William Magnusson has returned to her home, 775 Tulare way, following a week-long stay in Greenbrae, near San Francisco. She flew north by commercial airliner to spend the week with her sister, Mrs. John Elgin, nee Mayln Bradley, after Mr. Elgin was stricken with a heart attack. He will be in Letterman Army hospital, San Francisco, for six weeks, followed by a period of convalescing at the Elgin home, 90 Corte Cayuga Dr. Greenbrae, San Raphael, Calif.

UPPER — Balloon bop dancers at Gay Byrket's Saturday evening party had several false starts and used several score of balloons. Pictured warming up with balloons tied to ankles are Marilyn Maxwell and Larry Turner, center. The others left to right, Jimmy Fisher, Richard Masluk, James "Tennessee" Crosswell, Gay, her father attaching a second balloon to her ankle, and behind her, Beryl Drayton, who with Mike Ford was the winner.

LOWER — Sherry Grose in her "Smorgasbord" hat, named the most original and David Kamansky wearing his, "Mad Scientist" creation, tagged the most fantastic, almost stopped the party. Sherry's hat was a lazy susan, complete with tasty appetizers, fruit and crisp vegetables. David had a series of retorts, test-tubes and globes filled with colored fluids which leaked during picture taking, causing David some discomfiture and the other guests some glee.

Bonnie Hadley, Dean Smothers Engaged, To Wed In June

Of wide interest to the younger set and others in the Chaffey district is the announcement of the engagement of Miss Bonnie Hadley and Dean Smothers, both former Chaffey students and widely known in the area.

A June wedding is planned and news of their engagement was revealed by Miss Hadley to her Kappa Kappa Gamma sorority sisters at U.S.C. recently through the traditional passing of a lighted candle. As the candle was received by her, Miss Hadley blew out the light and then passed candy.

Daughter of Mr. and Mrs. L. S. Hadley, 846 N. First Ave., the attractive sophomore is a graduate of Chaffey high school and also attended Upland elementary and junior high schools.

Mr. Smothers, the son of Mr. and Mrs. H. E. Smothers, 554 N. Fifth Ave., is a senior in physical education at the University of Redlands. He is a Chaffey high school and junior college graduate and possesses an enviable campus record.

Mr. Smothers will study for his secondary teaching credentials next year and the bride will also be enrolled at the University of Redlands.

MR. AND MRS. EDWIN H. EPPERSON

300 Present As Miss Henderson, E. H. Epperson Exchange Vows

Mr. and Mrs. Edwin H. Epperson Jr., having returned from a honeymoon in San Francisco are now living in Pomona at 1487 Laurel Ave.

She is the former Miss Elaine Adele Townsend Henderson daughter of Mr. and Mrs. John F. Henderson, Lower San Antonio canyon U.S. Ranger Station. Mr. Epperson's parents are Mr. and Mrs. Edwin H. Epperson, Plaza Serena, Ontario.

Three hundred guests attended the wedding, Jan. 26, in First Methodist church, with Dr. Ralph W. Lee officiating. Candelebra with lighted tapers, palms and ferns, baskets of gladioli and pom pon 'mums flanked the altar and the center pews were marked with white satin ribbon bows.

Rose Point Lace Over Satin

The birde, arriving on the arm of her father, wore a rose point design lace dress over an off-shoulder duchess satin slip. A yoke effect was created by the scalloped neckline and slender lily point sleeves. The fullness of the waltz length skirt was accentuated by the long fitted torso. Her headdress of satin was covered with lace and edged with pearls and there was a cluster of orange blossoms at the back. In the fullness of her illusion veil. She carried a white orchid of floral streamers fastened to a white, lace covered Bible.

Sister Maid of Honor

Miss Patricia Anne Henderson, sister of the bride, was the maid of honor, and the bridesmaids were Miss Joan Epperson, sister of the bridegroom and Miss Patrena Slanus, Ontario. Their similar frocks were of blue crystalette in different shades, styled with scalloped necklines, short sleeves and full skirts belling from long torsos. Elbow length mits and blue velvet crowns matched their frocks and they carried colonial nosegays of blue carnations.

Marvin F. Thomas was the best man and the ushers were Garry Henderson and Frank Henderson, brothers of the bride; H. Bruce Douglas, Claremont; Lance F. Renner, Passaic, N.J.; and Kenneth L. Sullivan, Ontario. John F. Henderson, Jr.; Robt. Renta and Terry Townsend acted as candlelighters.

Navy Lace, Pink Brocade

Mrs. Henderson, mother of the bride, wore a navy blue lace over satin frock with pink satin hat, pink gloves and a corsage of pink carnations.

Mrs. Epperson, the bridegroom's mother, wore pink brocade with pink accessories and a pink carnation corsage.

Mary Jane Hess, the organist, also accompanied Robt. Vance, who sang, "At Dawning," "Because," and "The Lord's Prayer."

Guests went immediately to Cliffside Inn, Mt. Baldy, for the reception where white bells and streamers were used for decorations with calla lilies and ivy decorating the tables. The three tier wedding cake was arranged in a setting of ivy flanked white candles.

Assisting as hostesses were Mrs. R. L. Townsend and Mrs. Renta.

Both bride and bridegroom were graduated from Chaffey High school and are now attending Chaffey college. He served in military uniform for four years, stationed in Hawaii.

PSYCHOLOGICAL STOMP FEATURES— PINK ELEPHANTS

When pink elephants are featured as the band and the decorations are as much a surprise as the name, the Chaffey college Psychological Stomp promises to be the most unusual dance of the year, according to the Panther women servcie club, sponsors of the event Sautrday in the Kampus Kitchen, Student Union building.

Committees of club members busily engaged in preparing this informal dance include: Refreshments, Barbara Landes; tickets, Sarah Cooke; checkroom, Ann Swartz; invitations, Barbara Newman; decorations, Gwen Miller, assisted by Ginger Hale and Jeanette Rigsby; clean-up, Corrine Lobdell, and campus publicity, Diane Pruitt.

Court Fatima Style Show Has Emphasis on Travelling Togs

Members of the fashion show committee of Court of Our Lady of Fatima, made final arrangements for their spring show and tea, "Fashions That Go Places," at a recent meeting in St. George's Assembly hall with Mrs. Clayton Finch, general chairman, presiding. The affair is being held in the Upland Woman's clubhouse, Saturday, 1:30 p.m.

A decidedly practical touch is being added to the event by Miss Mary Gordon, TWA's travel advisor, who will be on hand to give a short demonstration on how to properly pack a suitcase, with emphasis on packing for plane travel.

Mrs. Leon Lucas, a member, who is a former fashion model, will direct members and nonmembers who are serving as models. As indicated in the title of the event, garments modeled will be adapted for travel and for social events and sports activities while traveling or vacationing. Upland and Ontario merchants will furnish the clothing shown.

Miss Caroline Grossi, who has just returned from a three-year stay in Milan, Italy, where she studied under the famed Giusepp Pais, has been engaged to sing. She is a lyric soprano and before going to Italy her teacher was Petro Cimini of Los Angeles.

Proceeds will go to the Seminary Burse which the Court has pledged to Bishop Charles F. Buddy of the San Diego Diocese. During the afternoon a beatiful silver tea service will be awarded.

Those wishing to obtain tickets should contact Mrs. Douglas E. Harp. 2-6113, or Mrs. John Ganger, 65536.

X-rays were discovered by Roentgen, a physicist of Germany, in 1895.

There are about 125,000 members of the AMVETS.

INSULT TO INJURY

Then, to make the case of mystification complete, try to list the "attending physicians" who attended you when you had hay fever, an ear infection, or kidney trouble while in military service. Every time you went to the hospital, or every time you were visited in the hospital ward, a different army doctor was on hand. It wasn't bad enough that you had to start all over with facts concerning your trouble each time you saw a doctor, but now you should recall their names. Some things are better forgotten.

But the application is for health insurance, life insurance, or a job is at stake, so you valiantly attempt to complete the form to the best of your ability and memory. Now its up to the insurance company or management to check the form, verify the facts, and attempt to find the answers you can't supply. We wonder how this is accomplished. If they can find the answers we can't supply, we'd sure like a carbon copy for our files. When memory fails and records cannot be located, it's a real problem.

For our children, we plan to maintain systematic health records to avoid any missing records that may be needed in their adulthood. We can certainly wish such had been done for us. And we're looking for a family physician to attend our children — a young, robust looking doctor.

Keeping Up

ONTARIO-CUCAMONGA

An interesting situation is developing between Ontario and Cucamonga. It is not a happy situation.

Cucamonga property owners sought to incorporate but the proceedings ended in the courthouse. Under the circumstances, Stanford Shaw, attorney, says the proposed boundaries cannot be touched until the supervisors officially act to abandon the proceedings.

Nevertheless, Ontario city council is in the annexation procedure, seeking to extend its city limits far east into the so-called Cucamonga district.

The Cucamonga incorporation committee has authorized Mr. Shaw to fight the proceedings to the limit.

Chorus, Tableaus, Band, Drill Team Highlight Program

More than 100 Upland Junior High school students on Thursday realized an outstanding achievement the efforts of considerable effort and talent, as they presented the annual patriotic assembly before the student body in Elementary school auditorium.

Groups participating included the Seventh Grade chorus, directed by Mrs. Marjorie Hagen; the Jayhi band and a special string ensemble, directed by Calvin Rainey, and the new girls' Drill team, directed by Mrs. Gertrude Quackenbush.

Mike Pugh served as narrator for the patriotic assembly, which told the story of American history in music and pictures. 72nd District Assemblyman Eugene G. Nisbet of Upland, as the main speaker, spoke to the students of Washington, Lincoln and Franklin D. Roosevelt as preservers of the American way of life.

Baton twirlers appearing with the smart drill team were Bonney Thrasher, Eileen Mefferd and Bonnie McKenzie.

Eighth grade boys, March Guzman, Tom Pilkington, Evertt Thornton and Donald Woodring, appeared in a tableau depicting the famous painting of the "Spirit of '76". The inauguration of George Washington as president was presented by Darryl Atchison, as George; Carol Loy, as Martha; Tom Molter and James Crossett. A square dance group depicted pioneer days and another group showed how the secret ballot preserves freedom.

A tableau serving as a finale for the student portion of the program depicted the Statue of Liberty welcoming distressed peoples of the world to the United States.

Zoning Ordinance Amendment Hearing Set For March 21

Thursday, March 21, 8 p.m. in the city hall council chamber, a hearing will be conducted by city counil on the proposed amendment to the zoning ordinance, which would authorize either posting or publication of notices of zone changes.

This amendment is planned to eliminate the necessity of posting almost the entire city with proposed zone change notices when the city moves to adopt its new zoning ordinance. Under the new ordinance, the procedure on posting property would again become effective.

Mounted Postal Carrier Added

Harold Baker is the new mounted postal carrier serving all of Upland east of Euclid Ave. not served by foot carriers, and Euclid Ave. north of Sixteenth St. to Twenty-fourth St., plus Orange Dr. off of Twenty-third St.

Postmaster Roy A. Ray reports the addition of a second mounted carrier to the Upland post office personnel. This new service route was created by the reduction of former rural and mounted carrier routes which had become overburdened.

Ray McGinnis, mounted carrier No. 1, serves Upland's western areas, and Euclid Ave. north to Sixteenth St.

John Bice, rural carrier, serves all areas north of Fourteenth St. not covered by the mounted carriers. The mounted carriers provide the same service as foot carriers, but deliver the mail to streetside mail boxes instead of front door service. Their service is the "in city" equivalent of the rural carrier's service in rural areas.

The Department of Commerce was created in 1903, when President Roosevelt signed a bill authorizing that department.

Harvesters' Class Gives New Life To Old Home Bought By Church

Harvesters, a young adult Sunday school class at First Methodist church, are proving themselves as energetic and capable as their class name implies — and the end product of their exertion is looking just as fruitful.

As a class project, the young men and women are painting, repairing and generally redecorating the old S. J. Norton house at the southwest corner of First Ave. and "C" St. Recently purchased by the adjacent church, the property is being remodeled for Sunday school and other church use.

The Harvesters will be the chief occupants of the main rooms of the house, and for this reason have undertaken its repair. Work parties have been held regularly once or twice a week, under direction of class president Don Steele, and the class is rapidly realizing the fulfillment of their project.

Glenn Wright removed existing walls between the living and dining rooms of the house so that the class might have one large assembly room. This room has been painted a soft gray. The adjacent kitchen has also been repaired and painted a bright, light green, and the class plans to serve coffee before Sunday school, and will also use the kitchen for class parties and other church activities held in the main assembly room of the house, or Harvester hall as it might be called.

The bathroom of the house is being redone as a powder room, and other major changes are underway. Buckets of paint, nails and hammer, scrub brush and bucket, all are party dress for the class members at their evening work parties, but it is all in preparation for the bib and tucker parties and Sunday classes they will soon be having in the old home.

Mrs. Dorothy Lawrence is the class teacher, and has aided the class in financing the remodeling project. The church treasury is not financing any of the work. Instead, the class is doing it as a contribution to its church. A piano is being installed by the church, however.

The Harvesters' Sunday school class has a brief but interesting history. It was founded not long ago to fill a need for a young adult class. It is open to both single and married young adults, and is now averaging an attendance of 12 persons each Sunday. Until now it has been meeting in the tower room of the main sanctuary building, a little-known room, off the sanctuary balcony, normally used for storage. But now the class has outgrown this accommodation, and its new quarters cannot be completed too soon.

As the young men of the class complete the major repairs, the young women are working on drapes to complete the decor. Soon the old landmark will echo with new life, as these industrious young church members make it a cheerful part of the church program.

An open house will be hosted by the Harvesters Sunday, March 10, from 10:30 to 11 a.m., the period between the two morning worship services at the Methodist church. All members and friends of the church are invited to inspect the results of the class project in rejuvenating the former residence. Coffee and donuts will be served by the host class.

During a work party of the Harvesters' Sunday school class of First Methodist church, Bob Vance paints while Lewis Stokes sweeps—all a part of the big shop of repairing and redecorating the old F. J. Norton home, First Ave. and "C" St., for Sunday school use. The class has undertaken this project for the church, with financing being accomplished through the class treasury and contributions by class members. Mrs. Dorothy Lawrence is the class teacher and Don Steele is class president. —Upland News Staff Photo

God's Laughter Evalenko Topic

"The Laughter of God" is Sunday's sermon topic, to be delivered by the Rev. Nicholas A. Evalenko, minister of the Church of Modern Christianity.

Services are held at Upland Woman's club house, Second Ave. and F St. at 11 a.m.

Sunday school will be held at the same location at 10:50 a.m., under the direction of Mrs. Jay Morris.

Music is under the supervision of Laurel Hillman Reeder.

Manhattan College was the winner of the 34th annual intercollegiate indoor track meet, held at Madison Square Garden in 1955.

Baptist Youth Plan Program

Young People's society of Bethel Baptist church, having organized, is now busy rounding out activities and drawing up their constitution and by-laws, according to the Rev. Eddie E. Pollard, youth director of the newly formed church.

Officers of the high school-college age group are, Charles Olson, president; Martha Olson, vice president; Charlene Johnston, secretary-treasurer and reporter; JoAnne Grant and Buddy Olson, co-chairmen of the program committee, and Mr. and Mrs. Don E. Grant, sponsors.

Other officers and committee chairmen are still to be selected.

The group will be affiliated with San Bernardino County Christian Endeavor society, thus joining several other youth groups in the Upland area.

A well rounded spiritual program is planned for each Sunday evening with one Sunday each month devoted to foreign and home missions.

Social activities will include bowling, roller and ice skating, swimming, beach parties and other recreational activities. Trips are planned to Southland places of interest each week. Breakfast at 8 a.m. on the first Sunday of each month and a singspiration at a member's home are included in the program.

Sunday school service and training union meetings are scheduled each Sunday at 9:45 a.m. and 5:45 p.m., respectively.

Mr. Pollard, youth director, is a graduate of California Baptist Theological Seminary in Covina, where he received his B.A. degree. He majored in Bible and minored in Christian education, and took many courses in psychology, including counseling. He has had 10 years of active work in church youth departments.

Pastor Presents Sermon Series

The Rev. Alvin C. Burkholder, pastor of the Brethren in Christ Church will present the third in a series of sermons on the "Sermon on the Mount," Sunday, during the 10:45 a.m. service. Royce Saltzman, director, will present the choir in special music.

Workers At Kick-Off Coffee

Red Cross Campaign Underway Today

Friday, at a campaign "Kick-off" coffee to be held at 10 a.m. in St. Mark's Episcopal church parish hall, Red Cross fund drive captains and volunteer workers will meet with Chairman Richard G. Manley. Campaign kits will be distributed and instructions given by Mr. Manley to aid volunteers in the fund drive.

Mr. Manley reported at a coffee for Red Cross leaders Monday, in the Upland chapter house, that his campaign organization is ready for action and hopeful that all districts will be solicited during the first two weeks of March.

Final Coffee Hour

"A final coffee hour has been scheduled for Friday, March 15", Mr. Manley said, "and at that time I expect the reports will indicate a major portion of the funds will be subscribed".

"Red Cross has had unprecedented expenses to meet during the past two years due to extensive flood and hurricane damage", Mr. Manley said. "This is reflected in the increased budget for Upland chapter, which provides $4312 to be sent to the national organization to help defray cost of rehabilitation of the Kentucky, Virginia and West Virginia flood areas.

"We in the foothill district have always answered the call for help by our less fortunate neighbors", Mr. Manley added, with the conclusion, "I'm sure we will not fail them this year."

Outlines Local Needs

With $10,075 of the $14,387 goal to be retained by Upland chapter for local needs, these needs were outlined by Mrs. Eleanor Taylor, executive secretary, for the Red Cross workers. "These needs are reflected in home service, which is on 24 hour call to assist with emergencies arising in the homes of servicemen; motor service, which provides transportation to hospitals and clinics for patients who would otherwise be unable to get medical care; comfort articles, made by the volunteer production workers for the U. S. naval hospital at Corona; classes in First Aid and water safety, made available locally to adults and children, and in materials for parties, provided to the patients at Patton State hospital twice each year.

Red Cross Drive Chairman Briefs Workers

Richard G. Manley, general chairman of the 1957 Red Cross fund drive for Upland chapter, serving and soliciting the Upland, Cucamonga, Alta Loma, Etiwanda and Mt. Baldy communities, outlines drive plans to a group of Red Cross workers. From left are Mr. Manley, Mrs. Asger Ravn, Cucamonga drive chairman; Mrs. Fred Strohte, Upland volunteer worker; Harry Dier, chapter chairman, and Mrs. Eleanor Taylor, chapter executive secretary. The Red Cross appeal is continuing through the month of March.

Urban Area Foreseen By Mikesell

Cucamonga-Alta Loma Zone Plan, Changing Conditions Cited

There are 312,000 parcels of land of varying sizes in San Bernardino county to be zoned to the wisest and highest use of the land, including parcels in the Upland-Foothill district, according to Daniel D. Mikesell, Second district supervisor. "And it is a difficult thing to legislate against any individual or group," the local supervisor states. "Officials

SUPT. MIKESELL

in the position of having to do this job are often torn between two areas or groups."

Mr. Mikesell made these observations as the county zoning committee met last week in revising the county zoning ordinance. Comprising the group are Robert Covington, county planning commission director, Mr. Mikesell, and a group of property owners from various areas in the county, in agriculture, commercial business, and development firms. The group is soon to submit a master plan of zoning and rezoning to better facilitate the swift growths and changes taking place in the county.

Manufacturing Zoning

The group conceded that manufacturing zoning is most difficult to work out, but when pressure on manufacturing zoning is resolved and this revision ready, the agricultural and residential zoning aspects can be more readily revised.

Agriculture is a hampered industry, according to some of the citizen members of the committee, who suggested a solution might be to allow some "permitted use" if and when an area is changed from agriculture to residential.

Commercial representatives on the committee expressed the feeling that if residential is allowed to 'encroach" into agricultural areas, commercial zoning can and will follow.

Changing Conditions

Mr. Mikesell referred back to two years ago when Mr. Covington submitted a master zoning plan to the Alta Loma-Cucamonga area, and recalled the fact that an attempt was made to please everyone as nearly as possible. "However", Mikesell said, "with the new schools recently voted in and the Cucamonga County Water District system going in, the area will probably become purely residential in the next few years. It is inevitable that where there are schools and colleges, people cluster around and it becomes an urban area".

The Zoning Committee scheduled its next meeting for Wednesday, March 6, 2 p.m., in the Supervisors' chambers.

Stuft Shirt Opening Days Next Week

Formal opening of he Stuft Shirt restaurant at the northeast corner of Foothill Blvd. and Euclid Ave. is scheduled for three days, March 8, 9 and 10.

These dates mark the culmination of many months of preparation and the realization of one of the most outstanding improvements here in the restaurant and entertainment field. A wide variety of features is scheduled to celebrate the long-awaited event.

Norman Goss, head of the Stuft Shirt Corp., is seeing a dream realized in completion of the development here. His application for a zone change was granted after long study in the city hall.

On completion of building plans actual work was started and wide interest has been shown in the major restaurant addition to the community.

Mrs. Ware Leads Concert Drive

Mrs. Thomas Ware, chairman of the Upland membership drive for the 1957-58 season of the Ontario-Upland Community Concert Assn., has announced that she has 10 team captains and 77 workers who will register members for the forth-coming season.

Team captains are Mmes. Bernard Naftel, Douglas Sage, Geo. Meffan, Royce Saltzman, Vernon V. Paine and Messrs. Edwin P. Dean, John A. Armstrong Jr., Wm. Ray and A. Warren.

Headquarters for the drive will be Upland Savings and Loan Assn., Second Ave. and Ninth St., where Mrs. Clyde Mackall will be in charge. The drive will start March 11 and continue through March 16. No memberships will be sold after March 16, Mrs. Ware stated.

Dues of $6. for adults and $3. for students entitle a member to attend all concerts of the Ontario-Upland Community Concert Assn., plus the concerts of other associations with which the local association has reciprocity agreements, when seats are available.

A bonus for new members will be admittance, without charge, to the final concert this season which is the Obernkirchen Children's choir, March, 23.

Zoning Talks Highlight Institute

Councilman Abner Haldeman, Planning Commissioner Daniel Maher, Commission Secretary Lillian Schubert and Realtor Harvey Siegrist represented Upland at an all-day planning and zoning institute held in San Bernardino recently.

County officials and specialists in the fields of zoning, engineering, water, waste disposal, streets and highways, flood control, and air pollution, met for an exchange of information and education.

Agriculture and poultry ranching checkerboarded with residential zones was the question highlighting the meetings due to the dissention throughout the county on this problem. "Zoning is a fluid thing", said Lester A. Brinkman, Los Angeles senior city planner, "and change should and will come. We must plan for it and prepare for it, keeping the land always to its highest and best use."

The question of a law to prevent air pollution was discussed and it was decided the county should have an authority to enforce such a law proposed.

Jacob Dekema, San Diego district engineer, Division of Highways, showed slides to illustrate how traffic flow can become integrated to build a city into a safe place in which to live.

Foothill Site Approved For Trailer Court

Mrs. Russell C. Norton, joint owner with her husband of Baldy View Court, at 1750 W. Foothill Blvd., expressed surprise when she walked into the County Planning Commission Thursday. She was there in a site approval request for their trailer court on the south side of Foothill, east of Central Ave.

She was a few minutes late and approval had already been granted. "Evidently this is not as controversial a subject as the previous one", remarked Mrs. Norton, referring to the Alta Loma zone change controversy.

She said she had been in the hall attempting to enter the hearing chambers as the Alta Loma groups left.

Alta Loma Request

A request from Ronald A. Hurley for a variance to build a second dwelling on a one acre parcel in an agriculture zone in the Alta Loma area was denied by the County planning commission Thursday, but a zone change from agriculture to manufacturing on the south side of Ninth between Hellman and Archibald Aves. in Cucamonga was approved. Sebastiano Filpi was the petitioner.

Road Widening Delays Permit For Station

A service station at the northeast corner of Base Line Rd. and Etiwanda Ave. in Etiwanda will have to await approval by the county board of supervisors until officials decide where the widened Base Line Rd. highway will go.

There is disagreement between Daniel D. Mikesell, supervisor, and Robert Covington, county planning director, as to the effect construction of the proposed station would have upon Base Line widening plans.

Covington said he felt the station would not interfere with the expansion plans, even thought the county planning commission had suggested building of the road might mean refusal of T. E. Harne's request for building a service station 15 feet from his property line on Base Line.

Mikesell said that allowing the station to proceed could lead to costly condemnation if and when the time comes to widen the highway.

Martin A. Nicholas, county highway commissioner, was asked to precise the route the widened roadway will follow at that point. The Board approved this plan at its meeting last week.

Students Hear Dr. Humbert, Mixed Chorus

Dr. Harold Humbert, lecturer and educator, was speaker for the Upland high school annual patriotic assembly Thursday in honor of George Washington. This is the second time he has appeared before the student body. Arthur Buchanan student body president, was in charge of the meeting.

The musical program was furnished by the school's mixed chorus composed of Darvel Allred, Joan Anderson, Ruth Babb, Joan Bankas, Susan Barr, Mary Jo Barton, Shirley Black, Marilyn Breda, Carol Burge, Jim Burton, Elvira Castro, Simon Chavez, Floyd Coppersmith, Dave Corlett, Lee Crandall, Connie Crockett, Rosa Duran, John Echelmeyer, Nancy Edward, Janet Ford, Stanley Fulton, Chas. Upland Continues In Strong Position In Citrus Industry

Upland continues to maintain a very high place in the citrus industry — even though locally the number of citrus trees is being consistently reduced.

Consolidation of the Ontario-Cucamonga Fruit Exchange and the San Antonio Fruit Exchange with the increased use of the local facilities is further indication that Upland will long remain as the "southland citrus center." One of the outstanding features of this consolidation, however, is the retirement of the veteran citrus official, Harry B. Harlow.

In many, many ways, he has left his imprint on the local citrus industry and the strength of the Sunkist organization throughout the Upland-Foothill district is due in great measure to his leadership and efficient administration. He has well earned a life of retirement and he is leaving the active leadership of the local office after energetically devoting nearly 40 years of his life to the community.

In a private conversation, Mr. Harlow paid a high tribute to the ability of Clyde V. Duncan, his assistant in the local Sunkist sales office. Mr. Duncan will continue as assistant and this further assures the community of continued stability in citrus sales.

Under the consolidation plan, effective tomorrow, P. C. Higginson of Claremont becomes Mr. Harlow's successor. The consolidation actually means that 10 southland citrus associations will be served. In other words, sales of most of the citrus fruit from Los Angeles to San Bernardino will be handled through the new O.K.-San Antonio Exchange office here.

Consolidation of packing houses has occured from time to time throughout the southland. This policy of consolidation has strengthened the local industry. As citrus associations elsewhere have chosen to cease, Upland associations have been selected to handle fruit from more distant points.

Thus, the community has maintained a high place in the processing of the famous oranges, lemons and grapefruit. Likewise, the consolidation of the two Sunkist sales offices will further emphasize the importance of Upland in the citrus field.

The increasing strength of citrus here comes at a time when the number of citrus trees and the volume of fruit in the southland is decreasing. The strong local situation is due in part to Mr. Harlow and to the vision and ability of the many men who make local policies and manage the local associations.

Uplanders are proud of its citrus growers and the citrus organizations.

Concert Assn. Memberships May Be At Premium In Drive

It is important to many people and to the community as a whole that major artists be brought to this area.

The Community Concert Assn. is the local agency that brings to the community the many outstanding artists who appear in the Chaffey auditorium. With increasing support, concerts are presented by the association and the time has come for another membership campaign.

During the week of March 11, everyone here will be given an opportunity to join the association. Without a doubt, the maximum membership quota will be achieved during the campaign. And without membership cards, persons cannot attend the various concerts during the season. That is, no single admissions are sold.

Jack Clark, a leading business executive and hard-working head of the association, is directing the membership campaign. Scores of "captains" will provide membership applications. The time to join is very soon. And if you want to share the outstanding cultural attractions, you should immediately accept the opportunity to join the association.

Upland's Location Big Advantage for Community

"We are an hour from the major attractions in Southern California."

Such was the description of the Upland-Foothill location given by a local resident to a visitor the other day. That is a correct description and those few words mean much.

This is a rare, favored area in which to live — next to the foothills, in a rural environment away from the metropolitan confusion — yet close enough to enjoy the greatest attractions in the southland.

As freeways are further extended, the travelling time to any point — the metropolitan area, the desert, the beach — will be further reduced.

Whether it is a big sports event in the L. A. colsieum, a major attraction in the Hollywood bowl or diversions at the beaches or a trip to the desert — you can be there, or almost there, within an hour from your foothill home. And so, when asked about Upland's location, say:

"It is a lovely spot adjacent to the foothills and an hour away from any place in the southland."

Sharps and Flats

By Chuck Barlow

Harold Spiegel and Cal Fifer in the Central Market have the ability to make me feel real sensitive about my stupidity at times. In fact they must plot to expose my density.

Several weeks ago I popped into the market with a cheery greeting and noticed a freshly opened box in the produce department.

"Those are the nicest tomatoes I believe I ever saw," was my passing comment.

"Those," said H. Spiegel, planting his 296 pounds (more or less) directly in my path, "are not tomatoes. They are persimmons. Didn't you ever see a persimmon before?"

"Only down in the Deep South and they were green. These sure don't look like the Louisiana variety," I answered.

"These aren't ripe as yet," Harold answered, "but they will be in a few days. Take one and when it gets soft see how delicious it is."

I took the proffered persimmon and guarded it anxiously until satisfied it was ripe. Then I had to split it four ways because three others immediately near and dear to me had never tasted a ripe persimmon.

The other day I started through the market when Cal called. "Hey, wait a minute."

I braked up short with some trepidition. Cal and Harold approached. In Harold's hand was a green mystery about twice the size of a hand grenade. It had similar markings.

"Did you ever try one of these?" Harold asked.

"What is it?" I asked.

Cal and Harold gave each other that "he really is a dope" look and then turned back to me.

"This is the sherbet fruit," Harold explained. "It combines the taste combination of ripe pineapple and strawberry with a distinct taste of its own."

"What is it?" I persisted.

"It has big seeds that you don't eat," Cal broke in, "and you split it lengthways and eat it like you would a melon. Dish it out with a spoon."

I studied the object in Harold's hand. It looked like an overgrown pear with a stem in the wrong end. The covering was similar to an avocado with pineapple like markings indented in the skin. Again I asked, "What is it?"

"It's a cherimoya, a tropical fruit, now being grown in California. These were raised on a ranch at Vista. Here take one." Harold offered me one.

Armed with my cherimoya, I returned to the office. Eleanor Allen, our girl Friday, was first to cross my path. "Have a bite," I shoved my cherimoya in her face.

She shrank like I had struck at her. "What is it?"

That was all I wanted to know. With a smug look I hunted up Joel Baugh. He was at the editorial desk nearly concealed by a stack of split infinitives and dangling participles. "Have a bite," I thrust my cherimoya out to Joel.

"What is it?" he gasped and ducked under the desk.

Gerry McGeer at the society desk was aroused by this confusion. As she glanced up I shoved my cherimoya out to her.

She blinked a time or two like a sleep walker first awakening. "What on earth is that thing?" she asked.

Armed by the knowledge I wasn't the only one in the dark concerning the highly touted cherimoya, I hunted up the boss. He was busy with both hands turning out editorial gold and dross when I shoved the cherimoya across his typewriter and into his range of vision.

"Have a bite," I invited.

He jerked like he had located a bee in his hip pocket. "What's that thing?"

"That thing," I elucidated, "is a cherimoya." Then I went ahead to detail all the knowledge I had picked up from the sages of the Central Market.

I have since learned that this South American fruit is hard to raise. Male and female flowers grow on the same tree. Male flowers open at night and the female flowers in the daytime. Pollination must be accomplished by orchard workers.

Male blooms are picked and stored under refrigeration until the female blossoms open in the daytime. Then workers take the male blooms from storage and pollinate the female blooms from whence comes the fruit.

Now I'm waiting for my cherimoya to get ripe. "It'll take a few days," Harold told me.

In the meantime I'm working up an appetite reading cherimoya literature. From this I quote: "When chilled, the Cherimoya becomes a delicious natural sherbet. Try this treasure of the tropics with other fruits in salads and cocktails for a real taste-thrill."

TIME PASSES

15 Years Ago

Membership in Upland Red Cross had been doubled but the fund drive was short half of the $7,150 quota. Mr. D. J. Cameron was chairman of the drive and was initiating a special effort to put the drive over the top.

Fire Chief J. W. Voth had been trying for weeks to "unfreeze" a fire truck. The situation was described as illogical and incongruous by the Chief who pointed out that defense and government officials had continuously urged communities to buy more fire trucks and extinquishers. The truck was a jeep type and all necessary equipment was in the possession of the city. The vehicle was "frozen" in a local warehouse by federal authority.

Francis Wilson, Robt. Armstrong and Boyd Lehman were leaving for army duty. All had enlisted and were to report in San Bernardino. Mr. Lehman was principal of the Alta Loma school.

Approximately 2,000 persons signed up in the third selective registration and many from scattered communities in the board's area were still coming in. There were 800 registrants in Upland.

Chief of Police Ralph Palmer was cast in the role of Soloman when more "owners" than the pig had quarters turned up to claim a lost porker after an advertisement in The News. Wisdom prevailed and the porker returned to its rightful owner.

Dr. Jas. V. Latimr, manager of the Upland mortuary of the J. B. Draper Co., had left for Bakersfield to join the U. S. Army Air corps.

25 Years Ago

Richard G. Manley released a breakdown of Upland's tax dollar. Largest share went to police administration. Expenses were $76,746. Police share was $14,901, which was 19.56 per cent. General government was next highest with a total of $9,848, almost 13 per cent. Other expenses were cost, Library, $7,944.47; fire department, $7,850; sanitation, $7,342; parks, $6,620; bonds, $5,901; highways, $5,560; street lights, health department, $4,330; miscellaneous, $1,830; health department, $1,300; building, $1,514; compensation insurance, $800 and emergencies, $415.43.

Monies received by the city were, Taxes, $62,535.39; licenses, $5,000; fines, $4,000; garbage, $1,800; franchises, $1,400; permits, $600; reserve, $500.61; dog tax $500; interest, $180, and miscellaneous, $50.

California Lemon growers were jubilant because Florida was to admit their product. Fruit was to be washed and stored for a period before inspection for acceptance.

Students of the Upland Junior High school were honoring the birthday anniversary of George Washington with the planting of a tree, on the campus. David Ward, president of the student body was to preside and he had extended an invitation to members of the Daughters of the American Revolution to attend.

Water was reached at a depth of 347 feet in a well that was being drilled in College heights.

There was a feeling that Upland men should be employed on the building of the Lemon Growers' Assn. addition. E. W. Lee had written a letter to The News asking why this was not being done. L. R. Bradley, manager, replied that he and The Chamber of Commerce were endeavoring to have local men employed. It had been impossible to make this a condition of the contract as the bid had been very low, he explained.

Mr. and Mrs. David L. Vasbiner were leaving Upland for Balboa as the result of his purchase of a cabin cruiser fishing boat. The boat was 30 feet long with a beam of eight feet.

Dr. James V. Latimer — This Life We Live

THE BELLS WERE STILLED:

Many of you have heard the great bells of Riverside Church in New York and rejoiced. The clarity of tone and the skill of the Master of the Bells thrilled us, even though we never saw the man. After twenty-five years the Carillion was dead. The worshippers never sensed it and the neighboring friends never missed them. They just rang on and on. The people continued to hear the bells and the worshippers never suspected any change. That was marvellous in my eyes and to my ears.

I am told that from April 1955 to the autumn of the following year the seventy-two bells were missing from the splendid 440 foot tower. The people never suspected it! The Master of the Corillion was absent also, for he was in Europe with the bells. Yet during those months the bells continued to call out the quarter hour day and night. They rang out the splendid songs of the ages also, and the worshippers never missed their call. But the bells were gone.

The master, Mr. Le Fevere, recorded many tapes before the bells were removed. The bells were taken down during the night so as to avoid questions. A few of them had lost the sharpness of their tone and all were shipped abroad for tuning. Heiliguerlee in the Netherlands is a small place, yet the foundries there send forth the major portion of all the Carillions of the world. The Master of the Riverside Church Corillon was there with the bells as they were tuned and some new ones added. Some seemed to have lost a half-tone and were brought up to pitch.

That noted foundry in this out-of-the-way town accepted fifty-six of the bells as part payment on the new ones and the careful check on those that were retained. There are no flaws in the bells now, even though they were silent for sixteen months.

If I were a preacher I probably would tell my people that the finest life of all is the one that goes on and on, even though the bells of life are silenced. But I am not preaching this morning, so leave this privilege to my ministerial friends.

Thrift Talks by don herold

Give them the "saving" idea early in life

Every youngster should be taught to save. Success in life is almost impossible without thrift. Thrift is one of the fundamentals of character building.

Today there is so much talk about the quick dollar — television prizes, rackets, doles, handouts, free education, free living, etc., that youth is apt to get the idea that life is a lark and a lottery.

Start a savings account for your child with a small amount in Euclid Savings & Loan at Ontario, and let him learn the fun of watching the figures grow in his pass book.

The earnings will teach him how interest increases the speed of the growth of savings. Start him with as little as $5! And teach him to "leave his savings lay."

Each savings account insured up to $10,000 by an agency of the U. S. Government.

The group is composed of medical doctors in the two counties engaged in general practice; all members are required to take continuing post-graduate training throughout their professional lives. Meeting in various parts of both counties, the Academy's February meeting was held at Harold's club in Fontana on Thursday.

The new officers include Doctors Allen F. Sterling, president; Merlin A. Hendrickson, president-elect and Donald K. Wake, Upland, secretary. Delegates to the state-wide California Academy of General Practice include Doctors Henry Barron, Norman Marsh, and Elmer Olson; alternates, Sterling, Myron Barnes, and J. D. Lansing.

Other local officers include Doctors Fred Lord and Wendel Gentry, membership chairmen; John T. Richards, correspondent; Barron, Sterling and Robert Williamson, post-graduate program committee; and Milford Dorough, Robt. M. Zweig and Truman T. Ackerson, Upland, program chairmen.

Cub Pack One Blue & Gold Large Affair

Upland Elementary PTA Cub Pack 1 held its blue and gold anniversary potluck in Upland Elementary cafeteria, Thursday night, with an almost 100 percent participation of Cubs, parents, sponsors and leaders. Robt. Ellingwood, Cubmaster, presided.

Den Mothers worked during the afternoon preparing for the feast and decorating. All mothers contributed to the potluck which consisted of fried chicken, baked beans, tacos, scalloped potatoes, salads and jello. Dessert served from three large birthday cakes. Cub Scouts made the attractive table decorations which carried out a George Washington theme.

Auditorium Program

The awards were made in the auditorium following dinner. C. J. Kissick, assistant Scoutmaster, assisted Mr. Ellingwood in making the awards.

An interesting film on the Red Sox and the Baseball Hall of Fame was shown.

During the distribution of awards, highest honors went to James Booth, Den 4, who received the Webelos award and silver arrows. James is leaving Cubs now to join the Webelos pack preparatory to becoming a Boy Scout.

Newly received members who were awarded their Bob Cat pins, were Raymond Gomez, Kent Flocker, Albert Getson, Gary Hull, Douglas James, Albert Lopez, Craig Martin, Lary Roos, Jimmy Smith and Dennis Turner.

Science Display Of Sun Power

San Antonio Community hospital staff members and guests last week saw an exciting demonstration of science's dramatic role in industrial progress, when Rodney Johnson of the General Motors Corp., was featured as guest speaker.

Most exciting item on the program was a miniature sun powered car, propelled by holding a 150 watt lamp, simulating the sun, over the hood. Button-like photo-voltaic cells on the hood turn the light energy into electrical energy to move the car.

During the evening, which was described as "Previews of Progress", the audience saw a visual history of jet propulsion in capsule form. Food lovers saw induction heating used to fry eggs in seconds on a cold stove. "Bottle with a Temper" was a unique demonstration of a bottle which can be used to hammer a nail but shatters when its inside is scratched by a small stone.

Walter Combs Gets Second County Office

San Bernardino county has a new office to be filled but an employee of long-standing and faithful service will fill the post. Walter V. Combs of Upland is the new Registrar of Voters by decision of the county board of supervisors, who waived examination in view of the fact that the work to be done will only be a continuation of what Mr. Combs has done for almost 30 years.

The post of registrar of voters was voted into being by the people last year in the changes made in the county charter. Prior to that time, Combs, as deputy county clerk, filled the position. Harry Allison, county clerk, has asked Combs to remain as assistant county clerk and to coordinate the two jobs as has been done in the past.

Daniel D. Mikesell said "it would be rediculous to ask Mr. Combs to take an examination to qualify as head of the new county department, since his work will remain unchanged".

Establishment of an independent election department was necessitated by the fact the election program is becoming as large as its parent county clerk's office.

Specialist Discusses Cerebral Palsy Care With Auxiliary

Lack of oxygen to the brain of the baby, caused by a serious illness of the mother before birth, has caused cerebral palsy, Dr. Ralph Williams told members of the Woman's auxiliary to San Antonio Community hospital, at a meeting in the Barr solarium, recently.

Dr. Williams stressed the need of education for both parents and the public in order to live at ease with the victims. He said there is an urgent need of mother relief as the care of most palsy patients requires 24 hour care.

He explained cerebral palsy as a lack of normal message control, usually one side of the victim is affected as a result of permanent damage to the brain. Surgery so far has had discouraging results. Treatment includes the use of standing tables, to teach muscular control of the limbs, and reflex chairs to relax the muscles.

Trained social workers can aid the victims and the family in adjusting to the ailment. Afflicted children have a class in Cypress school, Ontario. This is an important step in giving the palsy victim a chance to become a useful citizen.

During the business session, conducted by Mrs. Robt. Walker, president, Mrs. Earl Johnson, sick baby fund chairman, announced four babies were cared for during January, at a cost of $334. Mrs. Norman Lawson, free bed fund chairman, reported care of one patient cost $85.10.

Mrs. E. F. Pelton announced there are 127 paid members and dues are now payable.

Whether a garden-lover should choose a California poppy, iris, coffee berry, yucca, strawberry, live oak, and so on, depends, Dr. Lee W. Lenz advises, on the kind of soil one has. In California it may be coarse, clay, alkaline, acid or neutral. And one's home may be in one of twenty-eight plant "communities."

Buddies May Enlist, Serve Together In Armored Division

It was announced today by M/Sgt. M. L. Carr of the Pomona recruiting office, 367 S. Garey, that his office is accepting original enlistments of the top mental and physical categories for direct assignment to the 4th Armored Division.

Carr said that a group of buddy's enlisting for the first time together, and providing they choose the same outfit, will remain in the same division for the duration of their enlistment. The 4th Armored Division Sgt. Carr said is presently stationed at Ft. Hood, Texas.

This unit which has been designated a gyroscope unit is scheduled for movement to Europe in November this year. Other units open under the same plan include the 11th Airborne Division and the 546th Field Artillery Battalion. Interested persons may contact Sgt. Carr at the local recruiting office in Pomona.

Standard tries a flood of fire to make worn out oil fields produce again

Fire flooding produces heat and pressure to boil out previously unrecoverable oil, driving it underground to nearby producing wells.

MANY INACTIVE WELLS STILL HAVE LOTS OF OIL left underground in spite of the industry's great advances in oil recovery. Our country must have this oil to meet the growing power requirements of industry, the Armed Forces and motorists. That's why Standard is trying a new conservation experiment called "fire flooding."

We ignite some of the oil in a pool . . . control burning by regulating the air supply. Heat and pressure drive the oil to surrounding wells for pumping. It will take more than a year's time and a million dollars to see if fire flooding works. We think it's worth the effort because it could add more to U.S. underground oil reserves than the discovery of an entire new oil field.

Progress is the West means . . .
Helping find new sources to supply the oil U.S. will need in 1966
1956 8,827,000 barrels per day
1966 13,000,000 barrels per day

Standard's petroleum engineers say, "Back in 1925 the industry could predict only about 20% recovery from a new field. Modern secondary recovery methods, of which fire flooding is one of the latest, could more than double recovery."

Alta Loma Rezoning Request Strongly Opposed

County Planners Decide Monday On North Hills Co. Request

A decision will be rendered Monday, at 11 a.m., by the county planning commission on a zone change request filed by North Hills Co. on a large foothill parcel in Alta Loma, north of Wilson Ave.

In session Thursday in the supervisors' chambers at San Bernardino, the planners set March 4 as the date for a final decision and in the meantime are reviewing all evidence and inspecting the area in question.

All the commissioners expressed the opinion that no amendment for one group could be considered without consulting others who would be affected by the changes.

Crowded Chamber

The hearing chamber was jampacked with poultry and agriculture groups loudly protesting the change proposal. Aisle standing room was used to capacity for this hearing.

Attorney Stanford C. Shaw of Ontario presented the zoning request reiteration accompanied by a court reporter hired by North Hills Co.

Attorney Shaw said an effort was made to market the land in question to poultry people, about 18 months ago, but there was no demand for this particular property by poultry. The land is not level enough and it is not feasible financially to develop the parcel for anything but residential, he contended.

Poultry Protests

Poultry farmers from controversial Fontana areas were present to aid their fellow-ranchers of Alta Loma, Cucamonga and Upland, in opposing the zone change.

Shaw requested the residential zoning with the sites being cut from one acre to one-half acre to make them more marketable. He stated that a natural buffer between the poultry ranches and residential areas could be worked out and emphasized that no one wants to take anything away from anyone. "A one million, two hundred thousand dollar bond has been floated to install the Cucamonga County Water district. That puts water here but other foothill areas do not have it".

Upland-Foothill Men Train At Ontario Armory

Now occupying its completed building, 7800 square feet of floor-space and 4200 square feet of parking area leased from a private owner, the Army Reserve Training center, 153 S. Granite Ave., Ontario, will hold open house to the public Monday, 8-9:30 p.m.

The Reserve training center was established in Ontario almost a year ago to serve a wide area, including the Upland-Foothill district,and has occupied portions of the unfinished building, and its recent completion now permits the open house, according to Lt. Col.Cyrus J. Drew, senior unit advisor.

Local Reservists

Three Upland-Foothill reservists participating in the open house will be John Armendarez of Upland, operations sergeant with the Third battalion, 255th Infantry; Sfc. Alfred G. Garcia of Cucamonga, motor sergeant, and Cpl. Robert H. Hendrickson of Upland, with Hq. company, and all three of the Third Battalion, 255th Infantry.

Tours of the armory, training demonstrations and refreshments are on the program for the Monday evening public inspection. Mayor E. Tweed Stone and Upland City Councilmen will represent this city at the event.

Slate Demonstrations

Demonstrations to be presented by more than 100 reservists will include 81 mm mortar training, 105 mm howitzer gun drill, rifle squad tactics, enemy aircraft, spotting and plotting, and manipulation and function of field radios.

Veterans with military reserve obligations are using the training center, and it is expected the present facilities will be inadequate in several years. At that time, a permanent armory is anticipated. Construction on such a project is now underway in Pomona.

Fulfill Obligations

Upland-Foothill district men who enter the Army between the ages of 17 and 18½, under the reserve act providing an active duty tour of six months and a 7½-year reserve training obligation, will use the Ontario center as their Reserve training headquarters. Draftees who have reserve obligations are also utilizing the center.

Units now training at the center other than the Infantry battalion, for which Major John E. Gregory is commanding officer, are a company of engineers, an anti-aircraft detachment, a field artillery battery, and two signal detachments. Unit advisors are Col. Drew, and his assistant unit advisors, M/Sgts. Gorem D. Gillan, Chester O. McAllister and Robert E. Browne.

Col. Drew has also announced the training center classrooms and auditorium are available to public organizations for meetings and gatherings when not being used for Reserve meetings, held in the evenings each week.

More and more individuals and firms are reading and using the classifieds in The Upland News.

T. H. Harringtons Establish Ontario Home After Trip

The former Miss Modena Jean Russell and her bridegroom, Theodore Richard Harrington, following their honeymoon in the San Bernardino moutains, are now in residence at 1548 S. Euclid Ave., Ontario.

The marriage, uniting the daughter of Mr. and Mrs. Weir son of Mr. and Mrs. T. A. Harrington, 9577 Lomita Dr., Alta Loma, took place Feb. 2 in the Hollydale Christian church in Paramount with 200 family members and friends present.

Given in marriage by her father the bride wore a gown of Chantilly lace, sweeping to a Chapel-length train. Her headdress was a copy of that worn by Princess Grace of Monaco, and held a fingertip veil of illusion. Her large bouquet of white orchids was entwined with pearls.

Matron of Honor

Mrs. Jakup DeWitt of Ontario was her sister's matron of honor and Miss Donna Harrington, sister of the bridegroom, and Mrs. Lloyd Nicer of Torrance were the bridesmaids. Mrs. DeWitt wore an orchid taffeta gown styled with a bouffant floor length skirt. Her gloves and headpiece and her carnation bouquet were yellow. The bridesmaids in similar yellow frocks had yellow headdresses, gloves and carnation bouquets.

Betty June Wilson, the flower girl, wore a floor length frock of baby blue nylon trimmed with pink rosebuds set in blue ribbon, with a matching ribbon headpiece.

Jakup DeWitt was the best man and the ushers were Mr. Nicer and Earl Houghton of Rose meade.

Reception Follows

A reception followed in the Paramount Temple hall.

Mrs. Russell wore an orange irridescent crystallete gown and the mother of the bridegroom chose a dusty rose lace gown.

Pink and white decorations were used on the refreshment table from which guests were served a five tier cake, coffee and punch.

For the honeymoon trip the bride changed to a black velvet costume with gold and black accessories.

She attended Paramount schools and has been doing secretarial work in Paramount.

Mr. Harrington was graduated from Chaffey High school and has served in the U.S. Army, during which time he was in Korea two years. He is employed by Lockheed in Ontario.

SHOW THIS TO YOUR HUSBAND!
Tell him it's you without an electric clothes dryer — caught in the old "Monday morning squeeze" after you've stooped, stretched and strained to pin up another wash, and now feel like a washrag yourself.
Tell him the cure: a shiny new electric dryer. It saves you the lifting and bending and dependence on the weather. It saves clothes — they dry fluffier, cleaner and fresher smelling. They last longer, too.
Tell him it has to be an *electric* dryer, of course. Because it's so safe. Because you simply plug it in. And because it costs less to buy! (Electricity is your biggest bargain in modern living.)

Euclid Crescent West Extension P roposed

Heights Seek New County Route From Euclid To Mt. Baldy Rd.

As the result of a petition signed by 28 San Antonio heights residents, San Bernardino county highway commission is today considering the possibility of a new route north of 25th St. to connect with the new Mt. Baldy road.

Extension of Euclid Crescent West north of 25th St. in a circular fashion to connect with the Mt. Baldy road is suggested as a means of eliminating sharp turns on the present route and to remove from 25th, the heavy "through" traffic to the mountain resort.

Mrs. Burch Leader

Mrs. C. C. Burch, 580 W. 25th St. is one of the leaders in the movement. She said purpose of the proposal is to safeguard the motorists themselves in not having to make such sharp turns and to safeguard school children who must use 25th St. in going to and from school buses.

Mrs. Burch said she was informed the county already owns most of the land needed for the extended thoroughfare.

When motorists using Euclid Ave. now go to Mt. Baldy, they are required to make a sharp turn from Euclid Crescent W. onto 25th St. and then make another sharp turn off of 25th St. onto the new Mt. Baldy highway.

Extension Possible

Under the proposed plan, Euclid Crescent would be extended north of 25th along the established circular-right-of-way and then continue west to connect with the Mt. Baldy road.

"I am certain that many Upland residents in using the present route have found it hazardous in making the sharp connections and have observed the dangerous condition, when throngs of cars are going to the snow-covered mountains", Mrs. Burch said. "We would appreciate all the possible support in achieving our goal".

Mrs. Burch has conferred with Supervisor Dan Mikesell, who with his fellow supervisors have authorized M. A. Nicholas, county highway commissioner, to make a cost study of the project. If the change is made, it might occur over a period of several years due to the minimum funds available for this purpose, it is explained.

About People

Mr. and Mrs. J. L. Gordon and two sons, John and Dale, have moved into their recently purchased residence at 1245 Alta, this being one of the new streets in Foothill Knolls. They formerly resided at 470 N. Third Ave. Mr. Gordon is a sergeant in the marine corps. Another family in the new subdivision is Mr. and Mrs. D. L. Fillhart, who moved from Cucamonga to 1291 Alta. Mr. Fillhart is employed by Lockheed Services, Inc.

Meet a man of steel.

RUSS NIGGL...who lives in RIALTO
Truck-driving at Kaiser Steel and stage-acting at surrounding communities fit well together.
At least they do for Russ Niggl, long-time member of Local 2869, United Steelworkers of America, and veteran driver for the Kaiser Steel garage. At work during the day, he may be delivering a vitally-needed part to keep one of the steel mills rolling—that night, at play, delivering an oratorio from the stage of a community theater.
Russ has been engaged in little theater work since 1922, appearing on stages from Pittsburgh to Los Angeles. Locally, he has acted in or directed such productions as "Kind Lady," "Song of Norway," "Carousel," and "The Tender Trap."
In recent months, he has appeared on television screens across the nation, playing parts in such series programs as "Wyatt Earp," "China Smith," "Boston Blackie," "Father Knows Best."
Russ studied for three years in the Fine Arts department of the Carnegie Institute of Technology, Pittsburgh, Pennsylvania. He now lives in Rialto, with his wife Ruth. He has two married daughters; a son is in the Air Force.
With his job and his acting interests, Russ has still found time to devote himself to other civic activities. In 1955 he directed the Fontana Brotherhood Show, sponsored by the Fontana Interfaith Council—one of the big events of the year for the community. This year he is again helping in the annual effort, giving of his time and energy in a worthwhile civic project.
We think that the attitude of Russ Niggl toward his community is shared by the men and women at Kaiser Steel. By their active support of national and community activities, they are constantly demonstrating the truth of the axiom that people who work together grow together.
Kaiser Steel is dedicated to this same belief.
